**Amendments to the Specification**

*Please add the following new paragraph after line 2 on page 14:*

FIG. 10 schematically shows an alternative embodiment of the invention, wherein the clamping surface and the radially projecting means on the outer surface of the set screw include knurled surfaces.

*Please add the following new paragraph after between lines 20 and 21 on page 17:*

Knurled clamping surface **30** and outer gripping surface **1010** are schematically shown in FIG. 10.
